PAINT WARRANTY

GREEN MOUNTAIN GRILL PAINT WARRANTY

GMG's warranty policy on paint is to have the section repainted. Their maintenance and repair methods advise to clean and then repaint the affected areas. Details are listed below with regards to what paint to use, as well as preparation methods.

Prep for painting: *Lightly sand areas with 220 grit or finer sand paper. **Note:** on area where the paint is still good - Do Not remove paint. Simply lightly sand and feather edges of bare metal areas and paint. All areas should be cleaned with Denatured Alcohol and wiped clean. **For Bare metal areas:** High temperature (Auto) primer/ 900-1200* may require up to 3 coats. (Wait 30 minutes between coats or less depending on climate and Humidity). Paint recommended: Krylon High Temp BBQ paint Black or Stove-Bright Satin Black. Stove Bright is their technician's favorite brand, as it has a better cover area in his opinion. Apply 2 Coats of finish product. **NOTE: PAINT EXTERIOR ONLY.***

GMG INTERIOR PAINT

The way to fix inside the unit is to remove all loose flakes, coat surface with cooking oil and burn at 350 for 30 minutes. This will season the metal and protect it. After some use, the inside of the grill will become covered in a layer of grease (seasoned) and completely protected. The cooking oil simply protects until the natural seasoning occurs.
